Tom;

I'm not overly enthusiastic about the possibilities of getting much from SKEMEF-1; however, I would like to meet him and chat about his friends and business associates in the W/L Islands. He possibly might be used as an entree to reporting or support assets.

It would be my openion that we would not have to bring his clearance up to date to chat with him.

(FCIA insures 80% of export credit.) If so, the risk to the Puerto Rican Cement Company would be reduced and further credit could be extended.
- f. The Puerto Rican Cement Company has sold 133,000 bags of cement to AMCO.
- and that he is pushing Puerto Rican cement.

 Skewer/1 if his firm were worried about the amount of credit extended to AMCO. SKEWER/1 replied that AMCO is trying to help the Puerto Rican Cement Company and Puerto Rican Cement is in turn trying to help AMCO.

 SKEWER/1 imparted the impression that he has absolute confidence in his subordinates. In calling Tomas, SKEWER/1 said to us that he had gone over the head of his son.

 SKEWER/1 was not aware that AMCO Puerto Rico is a subsidiary of AMCO Panama. Shen apprised of this fact, he said that this arrangement is probably for tax purposes. SKEWER/1 left the impression that he considers AMCO as a Puerto Rican company and one warthy of support. Se recalled that he had previously given a job to a Trujilio opponent, Fred Imbert, whom no one else would hire. Str. Imbert now has his own shipping company and SKEWER/1 suggested that we assess his operation. He recalled that Mr. Truillo had telephoned him shout harboring a criminal. SKEWER/1 told Trujillo to mind his own business as would SKEWER/1. Mr. Stanulis indicated that KUMARK would not want to consider Fred Imbert's operation, given his family's involvement in the Dominican Republic. Throughout the conversation, the picture emerged of a san who trusts his subordinates and who would help an individual or firm, particularly Fuerto Rican, which is also erying to help his firm.

Case Officer Comment:

The meeting with SKEWER/1 confirmed Mr. Philpotts' report that his relations with the Puerto Rican Cement Company are good. It also revealed the terms of the relationship between the Puerto Rican Cement Company and AMCO which Mr. Philpotts had not reported in detail to WUBRINY/2. It is obvious that Mr. Philpotts has sold himself to certain officials in the Puerto Rican Cement Company who have the confidence of the Company's top management. The extent to which Mr. Philpotts may have conned other businessmen into extending credit and the amount of such credit is a key factor for investigation by WUBRINY/1 and /2, and Mr. Malia on their forthcoming trip. It is feared that Mr. Philpotts has incurred so many debts that the firing of Mr. Philpotts and reorganization of AMCO would be prohibitively expensive.

Operational and Co. ... Information

in two KADOM, Dispatches by as a possible candidate turouga waem reach to persons in the Dominican Republic could be developed and targeted against the intelligence service and the ruling circles there. In MPSA-1223 and EFSA-941, both dated 11 September 1956, Subject is montioned as a good permen for the beginning of covert operations in the Dominican Republic because he was well known and considered discreet by those who know him. Becume of his businesses in the U.S. and the Caribbean area, Subject had many persons working for him over a period of years who owed him some allegiance. Subject's companies did much business in the Dominican Republic. SKEDADILE. contact, was instructed to approach him indirectly through a cut-out who was a personaliffriend of SKEDADILE, a momber or the Puerto Rican legislature, a senior member of the Republican (Statehood) Party, and very close to Subject.

B. Information in Subject's PEQ II revealed that he was assigned the cryptonym SEEWER/

Since Subject was considered a loyal U.S. citizen, he was made witting of EUBARX's interest in persons in the Dominican Republic who might lead to the target. He accepted to small EUBARX is this endeavor enthusiatically. Although it was known that Subject once served as an honorary vice Consul

A common practice for prominent businessmen in Latin Amprica: he was not known to have any connections with a foreign intelligence service. His value to KURARE lay in bis personal knowledge of persons and facts in the Dominicas Republic, particularly individuals who travelled there for legal reasons, as well as his mostal and political status. The case officer described Subject as "intelligent," "well educated," and "a political lader whose real strength is in his being an enlightened capitalist." Describe he was (and is) so prominent, and could not be used "directly" is any operation (in the opinion of the case officer whe wrote the PEQ evaluation).

3. According to information in C-82943 (CI/OA File), WH/3/DBMB requested a POA on 4 May 1960 for permission to allow the use of Subject to "provide useful information on, or through witting or unwitting employees, courier access to the Dominion Republic," here is of Greek List No. 100861 dated 4 May 1960 were "no pertinent identifiable information" on 17 May 1960, and a field trace reply of that date was "me derogatory traces." The POA was granted 31 May 1960 and the OA on 11 September 1960, These clearances were cancelled on 31 and 34 March 1961, respectively, in notices to CI/OA by WH/3/DBMB. Research 1961, WH/4/Cube requested a reinstance granted by CI/OA on 11 September 1961.

T. An investigation report by the Office of Security in 1960 was not unfavorable. It did make reference to information in an FBI report dated 19 May 1950, in Washington, D.C., which also appeared in the Subject's 201 file. This report securities

- b) In 1982, Subject reportedly offered a job to Elizer Curet Cuevas, a Communist Party member in Puerto Bico (source not specified):
- 6) The FBI received information (source not specified)
 in 1952 and 1953 that Subject received mail from

d) At the request of the Justice Department, the FBI conducted an finquiry, under the Anti-trust Lass of the U.S., into the cenent industry in Eas Juan, Puerte Rico during December 1958. At industrialist and financier, Pubject reportedly controlled the commant industry in Puerto Rice. The Anti-trust Division Files of the Department of Justice contain the results of the inquiry.

according to memoral buy dited 4 January 1964, mot with Subject in Pence on 86 December 1963. At this time, Subject told that he was considering the construction of two sizable plants (cement and glass) in the Dominican Republic "as a means of augmenting official assistance through private enterprise." Subject felt that it was "imperative for all free nations of the Hamisphere to do all in their power to help the Dominican Republic become a true Democracy and deny it to the Communista. In this vital task, private capital must also participate betively." This is the conviction that prompted Subject to consider building the plants.

PAccording to a monorandum to CI/OA dated 37 May 1960, from UNI/3/DRAM, the inquiry had no effect on its proposed opera-

6. One document in the 201, UFGA-12398 dated 7 Hovember 1963, reveals That Subject was a member of a group of latin Americans who notionally subsidized AMACROAL (probably as asset of WH/SA). (IN 33997), 7 December 1961, one of a number of ables in Subject's 201 file, indicates that Subject took interest in Cuban affairs and was more than willing to obtain information on Cuban elements.

7. According to a document in Subject's 201, the Central Cover Staff had a record, Page 2128 dated 11 May 1960 in their File #5-3 in connection with #12/3/DRAM's PCA/OA, but had no active or direct interest in Subject.
